Education

Bachelor of Science: Computer Science, Expected in 05/2028

University of South Alabama - Mobile, AL

Graduated Sparkman HighSchool at 16 years old and entered college 1 month after turning 17

Professional Summary

Energetic and analytical, equipped with solid foundation in programming languages and software development principles. Well-versed in algorithms and data structures, possessing strong problem-solving capabilities and proficiency in C++, JavaScript, python, Java, HTML, CSS, and C#. Committed to delivering innovative solutions that enhance efficiency and performance.

Skills

I wrestled for 8 years, did JuJitsu for 9 Months, and muay Thai for 1.5 years. I used to love rubiks cubes, being able to solve a 3x3 in 23 seconds. I also love programming and coding, which I do not only for work but for fun when im free.

Work History

Freelance Programmer, 06/2024 to Current

Myself - Alabama

Myself and 2 of my friends will take projects for people, small businesses, or larger corporations and code it for them. This includes compilers and websites. Developed custom scripts to automate repetitive tasks, freeing up valuable time for other project priorities

Extracurricular Activities

The majority of my college time is either in school or at the Pi Kappa Alpha Fraternity house, which I am a member of. Pike has grown me much as a man and a student, forcing me to learn lots of time management and getting social while building strong bonds with my brothers. ΦΦ
